

**REMARKS**

In response to the Restriction Requirement mailed on September 16, 2003, Applicants, without traverse, elect to prosecute claims 1-17 (Group I). Claims 18-22 have been cancelled. In addition, Applicants have added new claims 23-25. The newly added claims are consistent with the election of the method of separating particles by dielectric constant. Finally, Applicants have amended the Title of the Invention in light of the currently pending claims. If there are any questions concerning this paper, please contact the undersigned at (949) 737-2926.

Respectfully submitted,
